PIRANHA TILT SLIDE

All  **Aussie Made!**

This innovative product from Piranha will enable you to convert an existing 40 Lt Piranha Fridge slide and some others to a Tilt Slide simply using part number FETS. Safely allowing access to your fridge contents when it is positioned higher than the back of the vehicle. Simple, Safe and a fraction of the cost of a full drop slide.

- **Adjustable Tilt angle**
- **Powder Coated**
- **Quality hardware**

If you do not have a fridge slide already, you buy a Tilt Slide and Fridge slide together as Part Number FETSCOMBO to enjoy the same convenience and again at a much lower cost.

The Piranha Tilt Slide will come flat packed for lower freight cost and with full instructions to assemble. If it is a FETSCOMBO then it will be the fridge slide as currently supplied plus the flat pack Tilt Slide.

Stock is anticipated to be available early in the new year.

Part Number FETS

Tilt Accessory to suit Piranha 40Lt Fridge Slide and some other brands may suit.

Price Levels	Price
RRP	\$299.00

Part Number FETSCOMBO

Tilt Accessory to suit Piranha 40Lt Fridge Slide plus a Piranha 40Lt Fridge Slide.

REDBACK ENGINE MANAGEMENT SYSTEM

Piranha has become a distributor for the Redback Performance chip and we look forward to being able to support the Piranha network with supply.

The Engine management can be matched with the famous Redback Exhaust system for many models and as it is a boxed solution can be easily shipped to our network to enhance the Engine Management chip and thereby a greater performance gain.

LIGHT BAR LOOM

Soon to be released, a Piranha Light Bar loom.

Part Number LIDL3 RRP \$65

With the recent popularity of the LED light bar product it was about time we produced a decent loom to optimise their output. With many of the bars now exceeding 100, 200 and even 300 watt a good quality loom will maximise the output.

The loom is supported with a 40 amp relay and to keep the cost down there is no switch which is also partly to do with the wide range of switches available the consumers like to have a choice to suit the vehicle dash layout. There is an extra long lead for the light to allow flexible positioning of the LED bar.

NEW TRAYS FOR NEW VEHICLES

Continuing with Piranha's extensive range, as comprehensive as possible, we will introduce these new battery trays.

Part Number	Description	Battery	Fitting	RRP
BTH15	2015 2.8Lt Toyota Hilux	12 inch	PSR	\$215
